

Insight welcomes you to Bloomington! Your high speed internet is furnished to you by Elkins Apartments and Insight Communications. Please call the office at 332-9486 to add Insight's other cable TV packages including InsightHD and InsightDigital cable.

This worksheet will help get you get online with Insight Broadband in your apartment. Insight has activated the cable modem and all you need to do is register your computer or router. To use the service, you must complete the Elkins Apartments cable/internet addendum and pick up a modem from the Elkins' office. Your own modems will not usually work and may lead to additional expense. Once you have the modem, you will need to make sure your cable modem lights are solid. When you connect your pc or router then the PC Activity light should then start flashing.

LED Legend

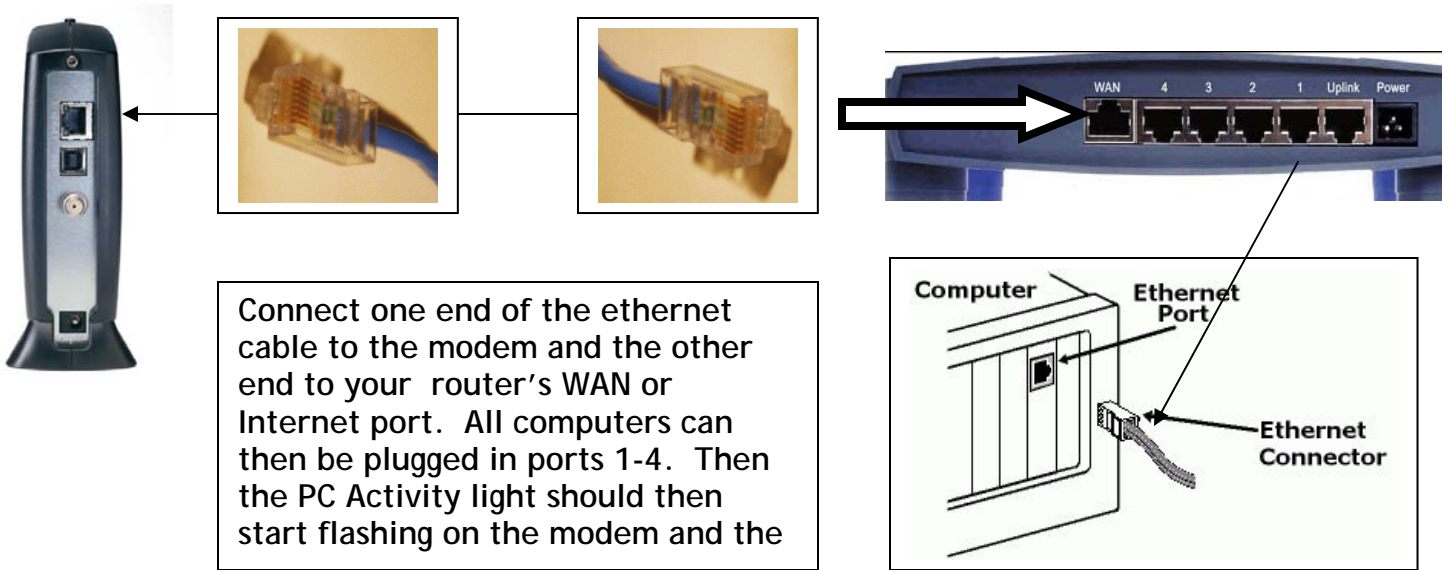

Modem Light	Status	Problem	Solution
Power	On	None	N/A
	Flashing	Startup diagnostics in progress	Verify all cable connections and try to reset the modem. Confirm signal levels and set up TC if necessary.
